Department of the Interior
<mark>Working with Interior</mark>

The Interior Department provides assistance to the public, local governments and businesses through a number of programs. For a general overview see: http://www.doi.gov/index.cfm

Working With Interior

The U.S. Department of the Interior's Office of Acquisition and Property Management oversees the overall implementation of department's procurement and grant programs. This includes ensuring these programs perform in accordance with current applicable laws and regulations. Each of our bureaus, as well as other major organizations within Interior, has its own procurement office. These offices contract with the private sector for a variety of supplies, equipment and services. Services our procurement offices have acquired by contract include training, architect-engineer services, advisory and assistance services, custodial services, guard services, operation and maintenance, telecommunications services and information-technology services, maintenance and support.

To learn more about doing business with any of our bureaus, check out their acquisition and procurement Web sites:

Last Updated Date:	Sep 08, 2016
Original Closing Date for Applications:	Nov 09, 2016
Current Closing Date for Applications:	Nov 09, 2016
Archive Date:	Dec 09, 2016
Estimated Total Program Funding:	$429,000
Award Ceiling:	$50,000
Award Floor:	$0

Eligible Applicants: Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility: U.S. accredited university Geoscience or related Departments are eligible for EDMAP funds. University professors must write and submit the proposals. EDMAP cooperative agreements are intended to fund students doing geologic mapping in the field. While it is proper for the professors advisors to ask for some logistical support so that they may be with their student(s) in the field for a credible amount of time, the bulk of the award is intended to support the students mapping efforts. EDMAP cooperative agreements do not support faculty salaries. Masters and Doctoral students of Geoscience or related Departments at accredited United States colleges and universities are eligible applicants to the EDMAP Program. In addition, qualified undergraduate Juniors and Seniors are also eligible. These undergraduates should have received some basic mineralogy, petrology and structural geology training prior to the time they will do the geologic mapping proposed in this proposal.

Agency Name: Geological Survey

Description: The primary objective of the EDMAP component of the NCGMP is to train the next generation of geologic mappers. To do this NCGMP provides funds for graduate and selected undergraduate students in academic research projects that involve geologic mapping as a major component. Through these cooperative agreements NCGMP hopes to expand the research and educational capacity of academic programs that teach earth science students the techniques of geologic mapping and field data analysis. Another important goal is to increase the level of communication between the Nations geologic surveys (both State Geological Surveys and the USGS) and geologic mappers in the academic community. We hope that this improved communication will have two results: 1) that the academic mapping community will learn more about the societal needs that drive geologic mapping projects at the USGS and State Geologic Surveys, and 2) more geologic maps produced in academia will eventually be made available to the public.

Description:	The U.S. Small Grants Program is a competitive, matching grants program that supports public-private partnerships carrying out projects in the United States that further the goals of the North American Wetlands Conservation Act. These projects must involve long-term protection, restoration, enhancement and/or establishment of wetlands and associated uplands habitats for the benefit of all wetlands-associated migratory birds. A 1:1 match is required. Research funding is ineligible. In June 2016, U.S. Small Grants Program award ceiling increased from $75,000 to $100,000 by the North American Wetlands Conservation Council (NAWCC).

Grant Opportunities

- **Access to Historical Records**
  The National Historical Publications and Records Commission seeks proposals that promote the preservation and use of historical records collections to broaden understanding of our democracy, history, and culture. This grant program is designed to support archival repositories in preserving and processing primary source materials. The program emphasizes the creation of online tools that facilitate the public discovery of historical records.
  - Final Deadline: June 15, 2016

- **Digital Dissemination of Archival Collections**
  The National Historical Publications and Records Commission desires to make historical records of national significance to the United States broadly available by disseminating digital surrogates on the Internet.
  - Final Deadline: October 8, 2015

- **Literacy and Engagement with Historical Records**
  The National Historical Publications and Records Commission seeks projects that encourage citizen engagement with historical records, especially those available online, and/or projects that train people on how to enhance digital literacy skills for using historical records.
  - Final Deadline: October 8, 2015

- **Institutes for Historical Editing**
  The National Historical Publications and Records Commission seeks proposals to improve the training and education of historical documentary editors. The goal of the program is to both provide technical training in necessary skills and inspire documentary editors to think about how they can contribute to the advancement of the field in the 21st century. The Institutes for Historical Editing should consist of both basic and advanced Institutes.
  - Final Deadline: February 11, 2016

Agency Name: National Archives and Records Administration

Description: The National Historical Publications and Records Commission seeks projects that will significantly improve public discovery and use of major historical records collections. All types of historical records are eligible, including documents, photographs, born-digital records, and analog audio and moving images. Projects may: • Digitize historical records collections, or related collections, held by a single institution and make them freely available online • Provide access to born-digital records • Create new freely-available virtual collections drawn from historical records held by multiple institutions • Create new tools and methods for users to access records The NHPRC welcomes collaborative projects, particularly for bringing together related records from multiple institutions. Projects that address significant needs in the field and result in replicable and scalable approaches will be more competitive. We also encourage organizations to actively engage the public in the work of the project. For a comprehensive list of Commission limitations on funding, please see "What we do and do not fund" (http://www.archives.gov/nhprc/apply/eligibility.html). Applications that consist entirely of ineligible activities will not be considered. Award Information A grant is for one to three years and for up to $350,000. We expect to make up to five grants in this category for a total of up to $1,000,000. Grants begin no earlier than January 1, 2018. Eligible applicants: • Nonprofit organizations or institutions • Colleges, universities, and other academic institutions • State or local government agencies • Federally-acknowledged or state-recognized Native American tribes or groups Cost Sharing The total costs of a project are shared between the NHPRC and the applicant organization. The Commission provides no more than 50 per cent of total project costs in the Access to Historical Records: Major Initiatives category. NHPRC grant recipients are not permitted to use grant funds for indirect costs (as indicated in 2 CFR 2600.101). Cost sharing is required. The applicant's financial contribution may include both direct and indirect expenses, in-kind contributions, non-Federal third-party contributions, and any income earned directly by the project. Indirect costs must be listed under the applicant's cost sharing contribution. Other Requirements Applicant

organizations must be registered in the System for Award Management (SAM) prior to submitting an application, maintain SAM registration throughout the application and award process, and include a valid DUNS number in their application. Details on SAM registration and requesting a DUNS number can be found at the System for Award Management website at http://sam.gov. Please refer to the User Guides section and the Grants Registrations PDF. APPLICATION AND SUBMISSION INFORMATION You must use Grants.gov to submit a Full Proposal. All information necessary to apply is included in this announcement, the Application Instructions, and the forms on Grants.gov. If you need the information supplied in an alternative format, please call the NHPRC at 202-357-5010. Applying for the Access to Historical Records: Major Initiatives program is a two-phase process. Phase One All applicants must have submitted a five-page preliminary proposal and Application for Federal Domestic Assistance – Short Organizational form SF424 and the Budget Information for Non-Construction Projects form SF424A by January 19, 2017 using the preliminary proposal Major Initiatives grant announcement (insert link). Only those applicants who have successfully completed Phase One and who have been invited by the Commission to submit a full proposal to the Access to Historical Records: Major Initiatives program are eligible to participate in the second phase of the process. Phase Two Using this announcement, invited applicants will prepare and submit a complete application via Grants.gov by July 12, 2017. A complete application includes the Application for Federal Assistance (Standard Form 424), Assurances -- Non-Construction Programs (Standard Form 424B), a Project Narrative, Supplementary Materials, and Budget. Applications lacking any of these items will not be considered. Applicants may consult with the Director of the Access Program, Alex Lorch (alexander.lorch@nara.gov) during both the preliminary and full proposal project phases. In order to ensure eligibility, applicants should first review the rules and regulations governing NHPRC grants under the Administering an NHPRC Grant section.

Grants for Organizations

We fund **projects** only. Projects may consist of one or more specific events or activities. Projects do not have to be new. Excellent existing projects can be just as competitive as new activities. Projects do not need to be big either; we welcome small projects that can make a difference in their community or field.

Art Works

To support the creation of art that meets the highest standards of excellence, public engagement with diverse and excellent art, lifelong learning in the arts, and the strengthening of communities through the arts. Matching grants generally range from $10,000 to $100,000. A minimum cost share/match equal to the grant amount is required.

Description:	An organization may submit only one proposal under this program solicitation. This Cooperative Agreement will begin no earlier than June 1, 2017, and may extend for up to 15 months. Program Description Through this Program Solicitation, the National Endowment for the Arts seeks a Cooperator to produce and administer the 2018 Poetry Out Loud National Finals competition to take place April 23-25, 2018 in Washington, DC. The National Finals are the culmination of the nationwide Poetry Out Loud (POL) program that encourages more than 365,000 high school students each year to learn about classic and contemporary poetry through memorization and performance. Students select, memorize, and recite poems from an anthology and compete for the title of National Poetry Out Loud Champion. Through a pyramid structure competition, winners advance from classroom recitation contests to school-wide competitions, then to the state competitions and, ultimately, to the National Finals. One student from every state, the District of Columbia, the U.S. Virgin

Islands, and Puerto Rico travel to the National Finals to compete for the national championship. Scope of Work The purpose of this Program Solicitation is to select an organization (Cooperator) to produce and coordinate the three-day 2018 POL National Finals competition of state and jurisdictional champions of the POL program, in conjunction with the National Endowment for the Arts and its partners. That National Finals will take place April 23-25, 2018 in Washington, DC. The National Finals competition venue and hotel have already been reserved to ensure the availability of space.

Grant Program Description Through fellowships to published translators, the National Endowment for the Arts supports projects for the translation of specific works of prose, poetry, or drama from other languages into English. We encourage translations of writers and of work that are not well represented in English translation. All proposed projects must be for creative translations of literary material into English. The work to be translated should be of interest for its literary excellence and value. Priority will be given to projects that involve work that has not previously been

translated into English. Competition for fellowships is rigorous. Potential applicants should consider carefully whether their work will be competitive at the national level.

Description:	The Arts Endowment's support of a project may start on May 1, 2017, or any time thereafter. Grants generally may cover a period of performance of up to two years, with an exception for projects that include primary data collection as part of the proposed activity. Projects that include primary data collection may request up to three years. Projects that extend beyond one year will be required to submit an annual progress report. A grantee may not receive more than one National Endowment for the Arts grant for the same project during the same period of performance. Program Description The National Endowment for the Arts' Office of Research & Analysis makes awards to support research that investigates the value and/or impact of the arts, either as individual components of the U.S. arts ecology or as they interact with each other and/or with other domains of American life. In past years, the Research: Art Works category has invited researchers to propose studies that examine topics related to any area(s) on the How Art Works system map (see Grant Program Description). These projects have used quantitative, qualitative, or mixed-methods approaches, and have relied on primary and/or secondary data for analysis. Examples of previously funded research can be found via the "Grant Search" engine or by viewing

Research: Art Works Grants Final Papers. This year, Research: Art Works offers support for projects in two areas: • Track One: Value and Impact. These research projects aim to examine the value and/or impact of the arts in any topic area(s) by using data and methods appropriate to the proposed research questions. Matching grants range from $10,000-$30,000. o Projects relying primarily on experimental/quasi-experimental design methods are not eligible under this Track and should apply to Track Two. • Track Two: Experimental and Quasi-Experimental Designs. These research projects aim to test the causal or inferred-causal impact of the arts on individual or cohort outcomes by using experimental or quasi-experimental design methods appropriate to the proposed research questions. Matching grants range from $30,000-$100,000. o This Track is only for projects relying primarily on experimental or quasi-experimental research methods.

Agency Name:	National Endowment for the Humanities
Description:	Digital Humanities Advancement Grants (DHAG) support digital projects throughout their lifecycles, from early start-up phases through implementation and long-term sustainability. Experimentation, reuse, and extensibility are hallmarks of this grant category, leading to innovative work that can scale to enhance research, teaching, and public programming in the humanities. This program combines the former Digital Humanities Start-Up Grants and Digital Humanities Implementation

Grants programs; the combined program is offered twice per year. Proposals are welcome for digital initiatives in any area of the humanities. Through a special partnership, the Institute of Museum and Library Services (IMLS) anticipates providing additional funding to this program to encourage innovative collaborations between museum or library professionals and humanities professionals to advance preservation of, access to, use of, and engagement with digital collections and services. Through this partnership, IMLS and NEH may jointly fund some DHAG projects that involve collaborations with museums and/or libraries. Digital Humanities Advancement Grants may involve • creating or enhancing experimental, computationally-based methods or techniques that contribute to the humanities; • pursuing scholarship that examines the history, criticism, and philosophy of digital culture and its impact on society, or explores the philosophical or practical implications and impact of digital humanities in specific fields or disciplines; or • revitalizing and/or recovering existing digital projects that promise to contribute substantively to scholarship, teaching, or public knowledge of the humanities.

Agency Name:	National Endowment for the Humanities
Description:	Scholarly Editions and Translations grants support the preparation of editions and translations of pre-existing texts of value to the humanities that are currently inaccessible or available in inadequate editions. Typically, the texts and documents are significant literary, philosophical, and historical materials; but other types of work, such as musical notation, are also eligible. Projects must be undertaken by at least one editor or translator and one other collaborating scholar. These grants support full-time or part-time activities for periods of one to three years. Applicants should demonstrate familiarity with the best practices

recommended by the Association for Documentary Editing or the Modern Language Association Committee on Scholarly Editions. Translation projects should also explain the theory and method adopted for the particular work to be translated. Editions and translations produced with NEH support contain scholarly and critical apparatus appropriate to the subject matter and format of the edition. This usually means introductions and annotations that provide essential information about a text's form, transmission, and historical and intellectual context. Proposals for editions of foreign language materials in the original language are eligible for funding, as well as proposals for editions of translated materials.

Agency Name:	National Endowment for the Humanities
Description:	As a part of its current initiative, Standing Together: The Humanities and the Experience of War, the National Endowment for the Humanities offers the Dialogues on the Experience of War program. The program supports the study and discussion of important humanities sources about war, in the belief that these sources can help U.S. military veterans and others to think more deeply about the issues raised by war and military service. The humanities sources can be drawn from history, philosophy, literature, and film—and they may and should be supplemented by testimonials from those who have served. The discussions are intended to promote serious exploration of important questions about the nature of duty, heroism, suffering, loyalty, and patriotism. The program awards grants of up to $100,000 that will support 1. the recruitment and training of discussion leaders; and 2. following the training program, the convening of at least two discussion programs. The discussion programs can take place on college and university campuses, in veterans' centers, at public libraries and museums, and at other community venues. Most of the participants in the discussion programs should be military veterans; others, such as men and women in active service, military families, and interested members of the public, may participate as well.

Agency Name:	National Endowment for the Humanities
Description:	The humanities can play a vital role at community colleges by expanding students' intellectual horizons and by increasing their capacity to read, write, and think analytically. By effecting these changes, the humanities can help prepare students for careers and for lives as engaged citizens. Humanities Initiatives at Community Colleges support community colleges' commitment to educating students on a variety of educational and career paths. The program funds curricular and faculty development projects that help strengthen humanities programs and/or incorporate humanistic approaches in fields outside the humanities. Each project must be organized around a core topic or set of themes, drawn from subjects such as history, philosophy, and literature. Each project must also incorporate a broader institutional vision for the humanities at a community college. NEH Humanities Initiatives may • develop bridge programs for at-risk and nontraditional students; • integrate substantial humanities content or texts in required or developmental courses that focus on close reading, analytical writing, and/or effective speaking; • support new humanities

programs (which may include but are not limited to new humanities minors, first-year seminars, and capstone courses) and enhance existing ones; • infuse humanistic learning into professional training (in such fields as business, law, engineering, technology, hospitality, and nursing and medicine); • create or improve curricular pathways towards graduation and/or transfer to four-year institutions; • create opportunities for faculty members to study together, in order to improve their capacity to teach the humanities; and • support collaborative projects in the humanities between the applicant institution and another institution, such as a college or university, a school or school system, a museum or library, or a historical or cultural society. Applicants are encouraged to draw on the knowledge of outside scholars who would contribute expertise and fresh insights to the project.

The National Science Foundation funds research and education in most [fields of science and engineering](#). It does this through grants, and cooperative agreements to more than 2,000 colleges, universities, K-12 school systems, businesses, informal science organizations and other research organizations throughout the United States. The Foundation accounts for about one-fourth of federal support to academic institutions for basic research.

NSF receives approximately 40,000 proposals each year for research, education and training projects, of which approximately 11,000 are funded. In addition, the Foundation receives several thousand applications for graduate and postdoctoral fellowships.

The agency operates no laboratories itself but does support National Research Centers, user facilities, certain oceanographic vessels and Antarctic research stations. The Foundation also supports cooperative research between universities and industry, US participation in international scientific and engineering efforts, and educational activities at every academic level.
